

BroadcastReceiver

IGCUserPeer

crc64a0e0a82d0db9a07d.Connectivity  
BroadcastReceiver

```
graph BT; Base["crc64a0e0a82d0db9a07d.Connectivity  
BroadcastReceiver"] --> BR[BroadcastReceiver]; Base --> IGC[IGCUserPeer];
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box representing the base class, labeled "crc64a0e0a82d0db9a07d.Connectivity" and "BroadcastReceiver". Two blue arrows point upwards from this base class box to two separate white boxes above it. The left white box is labeled "BroadcastReceiver", and the right white box is labeled "IGCUserPeer". This indicates that both "BroadcastReceiver" and "IGCUserPeer" inherit from the base class.
